Mr. Robert Bagdasarian, Chairman
St. Gregory of Narek Armenian Church
22230 Sandalwood Road
Bedford Heights, Ohio 44143

Dear Mr. Bagdasarian:

Since your church complex has been recently built and incorporates the traditional Armenian architecture we would appreciate a copy of the floor and elevation plans.

The reason for our request is that several communities in our Diocese are contemplating new churches and would like some idea of traditional Armenian design which a local architect can view and adopt in his drawings.

Your prompt attention to this request would be most appreciated since one community is ready to go on the drawing board with their church building.

Respectfully yours,

Frank Avakian Stoneson
Executive Director
