Future Outlook:

As a result of the 1977 General Assembly the ACYOA has regionalized with our chapter belonging to the Greater New York Region. We are looked upon as the anchor chapter in the region and as a result are hosting the regional lenten retreat and anniversary ball in 1978. In addition for the new year we were able to procure a gym through the Yonkers City Recreation Department and would like to have a comprehensive sports program. We will be starting participation in a pilot adult Christian Education program in eight parts in January. With effective leadership the chapter should be able to grow and expand the scope of its activities. The base has been firmly laid.

Respectfully submitted
