

For the year 1985-1986 your Parish Council has had three major areas of concentration.

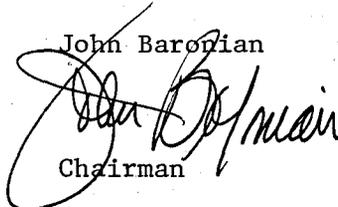

As you all know, the expansion of our new kitchen, the enlargement and renovation of our social hall and the addition of the new board room on the second floor has taken twelve months from the planning stages to its completion. This project has consumed most of our time this year, approximately seventy-five percent. I am happy to report that this project came in under the original budget cost.

The maintenance and up-keep of the church and buildings has been another concern of the Parish Council. In the past we have not had adequate maintenance of our facilities. We have finally worked out a plan where now there is a designated person in charge who will schedule and follow through in all of these areas.

As you know, for the past several months we have been without deacons during our church services. This has been our third major concern. I can tell you that we are moving in a positive direction in resolving this problem. We have had good responses from several of the young men. With Der Haig's help they are now in a program to learn their parts. Hopefully the future will be bright in this area.

As a whole, the year has been a good one, and I wish to thank the members of the Parish Council, the members of all the church organizations, for their contributions and efforts for a job well done. A special thanks to Der Arsen for his guidance and leadership.
