**TIME:** We left at 9:30 AM on Sept. 25th from the church. We broke camp at 5:30 PM Sept. 27th. It was ~~at~~ our intention to stay until noon on the 28th but after the camp started a majority of the adults wanted to leave on the 27th. This caused some tension amongst the kids especially on the last day. Such changes in an announced schedule should be avoided in the future.

**COMMENTS:** Surpazan Hayr, Paul Shahinian and Jack Andonian contributed much to the success of theouting.

We took along footballs and a volley-ball set which was put to great advantage.

Next year have the campers take their own eating utensils.

The outing should be at least 4-6 days to make it worthwhile.

We waited too long in the season../.thelast week in August is not a good time.

Ithink those that went all enjoyed themselves.

**RECOMMENDATION:** I recommend that the Parish Council ask Dean Shahinian to assume the task of planning next year's camping trip. Planning should start immediately and firm plans announced in June. Even if Deancannot go next year he should be asked to ~~pl~~ plan and set up the camp including contacting prospective campers.

**PLACE:** If we are to go to a park I think that Big Meadow Campground in Shenendoah National Park where we went this year is excellent.
