Alberta Mayzarian says that she is

sending a check for \$15.00. However

there was no check in the envelope.

Shall I write and ask for it or should I forget it.

The Diocesan Calendar for 1981 is dedicated to the countless places in historic Armenia where our faith, culture and very lifeblood were forged and prospered. That Armenians are no longer there is not a cause for lament alone. For from these ancient and magnificent sites, once teeming with Armenian vigor, we have transplanted a unique national character to new homes and new countries, where it blossoms yet again. To each community we bring with us a hardy Christian faith which has endured centuries of persecution and national anguish. And the heartbeat of all these is a resurgent Armenia, spiritual home to all its far-flung children.

It has already been twelve years since the consecration of our own Cathedral in New York and since then the programs and activities of our Diocese have grown at an unprecedented rate. But we also face serious financial challenges that could not have been imagined more than a decade ago. And the swiftly changing pattern of world events which has threatened the traditional Armenian way of life all over the Middle East also places a new and crucial responsibility upon this, the largest Diocese of the Armenian Church in the world.

Your generosity is needed, and deeply appreciated. The Church is your family; please give us your help.
