Mr. Haik Kavookjian  
330 West 42nd Street  
New York, New York 10036

Dear Mr. Kavookjian:

Since the last contribution I made of some stock toward my pledge made you so happy, I have decided to make a further contribution before the end of the year to make you a little happier. Enclosed is my check for \$14,300.00. If the AGBU knew I was giving you all this money, they would fire me from the presidency, but I always say, fair is fair, and I am always looking for a fair advantage.

Incidentally, you did not say anything in your letter in regard to the high expenses and substantial losses being incurred each year by the Diocesan complex and what, if anything, is being done about it. It is not very encouraging to make contributions to a losing proposition. I don't mean, Haik, to add to your problems--I wouldn't do that for the world, but I believe it is worth checking into.

I would like to take this occasion again to wish you and Mrs. Kavookjian the best of health and happiness for 1971.

Kindest regards,

Edward Mardigian
