Dear Srparau,

I want to thank you for your help in bringing the beautiful Armenian chalice to Cleveland and fulfilling Johnnie's intention to have a memorial to his family at the altar.

You were always a part of our best memories and for me you were the saving light at the end of a dark, dangerous tunnel.

These days I am enjoying the emergence of what Greg calls "the skeptical Czech" in me. I call it a sampling

of elderly wisdom.

As always, the family joins in loving wishes for the continuance of your strength and devotion in your precious Service.

Sincerely,

Florence Goekjian

P.S.: I must soon join the Parish Council in my official capacity (Dios. Del.) in drafting another kind of letter to you. That's life!

Again, F.G.
