

Please find enclosed a Building Committee Survey Form for all Church organizations. This form was conceived in the Building Committee Meeting of November 27, 1967.

The Building Committee feels that the proposed Cultural Hall should and must serve both the immediate and long-range needs and program of the entire Armenian Church Community. For this reason we have composed a survey to allow you to review your own past activities in order to help you formulate your long-range plans. We need this direction from you to assist us in the planning of a functional and efficiently conceived Cultural Building.

Please consider these questions carefully in appropriate executive meetings prior to general discussion in your membership meeting. A member of the Building Committee will be present at your several meetings in order to assist you in your task.

This survey is an extremely important way that you can make an effective contribution in forming the future direction of our community.

Your considered reply will be appreciated.
