

DIOCESAN DELEGATE REPORT

The Diocesan Assembly was held from May 3-5, 1990 in the Armenian church of Our Saviour - Worcester, MA.

A full report was given to the Special Parrish Assembly on June 24, 1990, which was exclusively for the coverage of the Assembly.

The salient features than were the earthquake recovery efforts and the unity discussions. Unfortunately, no progress has been made which I can report to this Assembly. No unity talks have taken place, so the attempt to finish the By Laws are incomplete. There are no plans to celebrate April 24 this year united in New York.

Earthquake construction has started, but has been slow. The sixteen units in Stepanavan have been finished and more work will start this summer.

Budget Deficit of \$495,000 is estimated and efforts for fund raising have been initiated by the Primate.

It should be brought to your attention that By Law amendments are due by March 1, 1991 and Proposal by April 25, 1991. Chairman is George Nahabedian.
