

ANNUAL REPORT OF THE TRINITY MEN'S UNION - 1966

The Trinity Men's Union started an active 1966 in January with the distinguished former Primate Archbishop Tiran Nersoyan giving a lecture on the World Ecumenical Movement. There followed in March the T.M.U. Communion Breakfast following the taking of Communion by the members. Highlights of the year included interesting speakers on Armenian history, the Greek Orthodox Church, the new Aquarium, and the U.S. Space program.

At each meeting, the membership was favored with delicious dinners prepared by our own members.

The T.M.U. had the distinct pleasure of inviting the newly elected Primate, Archbishop Torkoom Manoogian to address our members at the regular meeting in October.

The year 1966 marked the beginning of the ambitious Special Study Group Committee reports on the various phases of our church. The T.M.U. received reports on the Sunday School and the Church Services, along with each committee's recommendations. The remaining four committees will report in early 1967.

Respectfully submitted,

Walter G. Vartanian,
Recording Secretary
