

PARISH COUNCIL

Having served on the Parish Council for the past eight years, and the last six as Chairman, I had the privilege to work closely with many fine individuals from our own parish and from throughout the Diocese. As I look back, I wish to thank all who have helped to serve the needs of our church. I especially wish to thank Fr. Papken Anoushian who has willingly come here twice monthly in spite of his very demanding schedule to provide for our spiritual needs.

We have endured some very trying times as we sometimes struggled to keep the church operating normally. We have succeeded in keeping the doors open on a regular basis, providing for the spiritual needs of the community.

There are many things that our church community needs, and a full time priest would provide the proper catalyst to make them a reality. May all of you come to fully appreciate what a treasure we have in our own church. Please do not take it for granted, as it has only been through the hard work and dedication of your elected officials that it remains open for you to this day.

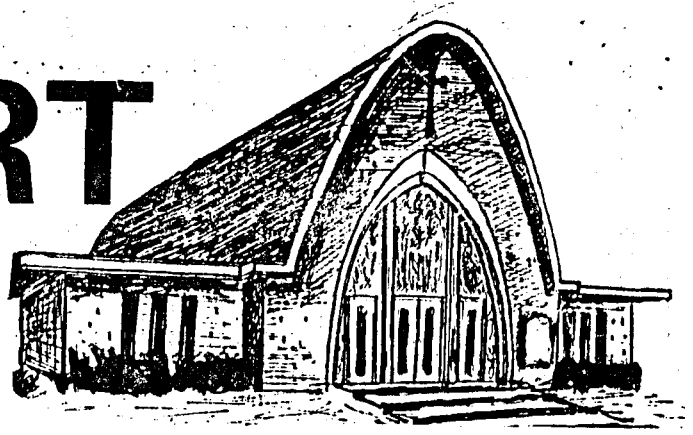

The Armenian Church in this country will face some serious challenges in the next few years as her active membership continues to grow older and the problem of available clergy becomes more acute. We must remain flexible to adapt to these changing conditions. Please lend your support to the new Parish Council as they continue to move the church forward.

Respectfully,
Leif Peterson
Diocesan Delegate
