

Report of the Auditing Committee

The Auditing Committee has examined the financial books and records of the Church, including the Building Fund, and has found them in good order.

We verify that taking into account the balance of January 1, 1967 and income and expenditure during the 1967 calendar year, we find a net balance, as of December 31, 1967, of \$10,614.57, including the building fund accounts.

The Committee also audited the books of the Ladies' Auxiliary, and found them in good order.
