Not a member of our parish, nor even of the Armenian Apostolic Church (he's Armenian Protestant), is a Puzant Jeryan of New Jersey who works for Kuljian Corporation and has made a number of trips to Armenia and prepared film which he's been showing around, often under AGBU sponsorship. He's also prepared a rather good booklet entitled "Echmiadzin" which he has distributed to friends. You might add him to the list; he's a bachelor and appears to have resources.
