Dear Miss Jamgotch:

This is just a note to thank you for your beautiful gift of needle lace and delicious koorabya cookies.

You cannot imagine how dear you and your sister are to me and what a great joy it was to have met you during my stay in New York. For all these years your lovely flowers have graced the Cathedral and the Diocesan offices; you have both done so much for the Church and with so much love.

I will be returning home to Canada very shortly but I do hope that on future visits we will see each other again. Take good care of yourselves and extend my regards and thanks to your brother as well.

With very warm regards,

Yours sincerely,

Syraun Palvetzian
