Dearest Archbishop Torton,

It has been so long since we have seen you. We pray you are well. We caught our Blessings each day for the Greatest Pawn on Earth - has shewed our home with good health and good happenings. Steve is feeling so good now-a-days. Christopher is attending College in Northern Michigan. Stephanie travels often to Roanoke, Virginia because she has a fine young man there. And I find great rewards in teaching the hearing disabled children. Our only problem is we are all now caught up in our professional lives and we have been limited in seeing our community as much as we would like to.

How happy we would be if we could sit and visit with you, as we used to. We will always love you
